

## It's All Good

Stillwell

Another mayday, too many wrongs to pay  
I better pray, if I should get my way  
Said to stay, and say what I have got to say  
When I survey, I just don't like the way they play  
It's all good, don't worry its all good  
My homie it's all good, don't worry its all good  
We keep it movin', we keep it movin', we keep it movin'  
No one to blame, so I just said my name  
No hurt no gain, so watch me cut my vein  
Dropped and drained, until I locked and checked my brain  
It's safe to say, I love where I end up today  
It's all good, don't worry its all good  
My homie it's all good, don't worry its all good  
We keep it movin', we keep it movin', we keep it movin'
