

You Can't Stop Me

Stillwell

Go ahead and spit in my face, you can try and have me erased
When I sink just let me drown, give a good kick when I'm down
Go ahead pour dirt on my name, point at me I'm the one to blame
Stop me when you see me strive, drop me I'm buried alive
Road block up in my path, put me out with the rest of the trash
One thing before I go, gonna let you know that I'm here to stay
You can't break me, no you can't stop me
Let it go dawg, cause there aint nothing to stop me
Sit and watch me, cause you can't stop me
Let it go dawg, cause there aint nothing to stop me
Bad mouth me through the strain, backstab and bring the pain
The good guy that you despise, quick have me crucified
You can try to take the advantage, have a smile take me for granted
Put a barricade in my way, interrupt what I need to say
Unplug whatever you could, tell the world that I'm no good
You can try to disrupt me or you can cut me off
Still I'm on my way
You can't break me, no you can't stop me
Let it go dawg, cause there aint nothing to stop me
Sit and watch me, cause you can't stop me
Let it go dawg, cause there aint nothing to stop me

We've been split between who gives and those that take away
I have given all knowing soon ill have my day
Go ahead and spit in my face, you can try and have me erased
When I sink just let me drown, give a good kick when I'm down
Go ahead throw salt on my game, point at me I'm the one to blame
Stop me when you see me strive, drop me I'm buried alive
Road block up in my path, put me out with the rest of the trash
One thing before I go, gonna let you know that I'm here to stay
You can't break me, no you can't stop me
Let it go dawg, cause there aint nothing to stop me
Sit and watch me, cause you can't stop me
Let it go dawg, cause there aint nothing to stop me
