

Scared Of Ghosts

Stiltskin

I see your voice
You're a scared of a ghost
Take what you had
From pillar to post
I stand beside you
And look in your eyes
And If you're dead its no surprise
I hear you
I hear you
Words don't be afraid
Words don't be afraid
Don't be afraid
They live your life
Through the core of the tune
Under advice
You take It too soon
They steal Your name
Turn in your grave
Their armies march there's nothing to save
Now your ideas are rollin in dust
And all you fought
For those who won't trust
Take your inversion
And turn It around
Paint your perversion and hide it in sound
I hear you
I hear you
Words don't be afraid
Words don't be afraid
Don't be afraid
Don't be afraid anymore when they turn out the night
Don't be afraid in the dark of the light
Don't be afradi anymore at the sound of the sea
Don't be afraid
