

# Dynamite

Stina Nordenstam

The film they show is  
Sad and boring  
The morning shot from a diving bell

Forgetting you is like  
Breathing water  
There's got to be a better way

Dynamite  
Dynamite

A thing you said once  
Made me wonder  
What can go away as fast as love

First the light  
And then the thunder  
I've been up all night and I got it now

Dynamite  
Dynamite

All day I  
Did things slowly  
Walked in circles round your home

I had something to add  
To the things you showed me  
I've got it here underneath my coat
