Dynamite

Stina Nordenstam

The film they show is Sad and boring The morning shot from a diving bell

Forgetting you is like
Breathing water
There's got to be a better way

Dynamite Dynamite

A thing you said once Made me wonder What can go away as fast as love

First the light
And then the thunder
I've been up all night and I got it now

Dynamite Dynamite

All day I Did things slowly Walked in circles round your home

I had something to add
To the things you showed me
I've got it here underneath my coat

Dynamite Dynamite
