

Get On with Your Life

Stina Nordenstam

They put a needle once in my spine
It took them so long to find it
I can't get this pornfilm out of my head
Let's get on with it

It is banging inside
It is singing aloud
Get on with your life

All over the world they get out of bed
Love dies every second
I can't get this creature out of my way
Killing it is not an option

It is biting your nails
So as not to scratch
Get on with your life

It is counting aloud
'Til the battery dies
Get on with your life

And I try to get up and I try to move but
This thing won't let me
It's heavy as a man's body on you
And it's this close to get me

It is banging inside
It is singing aloud
Get on with your life

'Til the battery dies
'Til the battery dies
Get on with your life
