

Lori Glory you're on the list
Beware of what's coming
Though hard to resist

Lori Glory
Like a fly drawn to light
You met me at the airport
You were such a sight

I said nothing and then nothing
And then you said 'The man that I love
Love you, so I will love you too'

Lori Glory
In the back seat of a cab
Did I dream that you kissed me
Lori I'm so sad

Men took all the decisions
About what and why and when
You learned the part of refusals
And you played it very well

Lori Glory
Like a fly drawn to light
At the bars where you took me
You were the queen of the night

Lori Glory
The girl that I like
Promise to fight harder
The next time they strike

I said nothing and then nothing
And then you said 'The man that I love
Love you, so I will love you too'

Lori Glory
My bags are packed
Our last walk cross Manhattan
Such a balancing act
