## **Stone Fury**

## Babe

Day into night We're here to walk the line It's all we need to take Us to the place we wanna go

Part of my life Your not here all alone As hard as it may seem sometimes It's worth it's weight in goldl

I don't wanna see you cry But if you do, I'm by your side I wanna lift you slowly high

Babe, babe ....ooh

Babe, you're my only way You're all I need to take me to the place I wanna go You cry, I know it's give and take I can ease you down, when somethings wrong Hold you till it's gone

Don't cry...
