

# Don't Tell Me Why

Stone Fury

Keep me waiting again  
I wanna feel your touch  
Don't make me feel like a fool  
You know it's much too much  
You did it one time before  
You know that it's true, that's enough  
Why do you fight, when it seems so right  
Don't waste the night  
Get out

Don't tell me why  
Tell the other guy  
Don't even say goodbye

You're trying to get enough  
Your white is turnin' black  
You've lost the feelin' of love  
You better get it back  
If you come that's okay  
But don't touch, don't touch  
Don't start me rollin

Now I know who you are, little star  
I know who you are  
Get out, there's nothing for us to say

Oh yeah  
Got me rollin
