

Let Them Talk

Stone Fury

Some of your friends
Want us to end
They don't care at all

They want you back
They felt attacked
When I came along

Them let talk
And they say what they want to
Let them talk
They don't understand
Let them talk
Just don't let it change you

All of my life
I had to fight for a girl like you
Those who would be between you and me
Have no chance at all
Not at all

Let them talk
And say what they want to
Let them talk
They don't understand
Let them talk
Just don't let it change you
Let them talk

They don't decide things
Dont know your feelings
Not at all

I am your best friend
I won't let us end
Not at all
Let them talk
