

# Stay

Stone Fury

Walking out  
Through the night  
Shadows move, as I cross the light  
I looked low, I looked high  
It was you I was hoping to find  
You get near  
I get warm  
I can hear when your body talks  
I get close, I get high  
I believe in that look in your eyes

Stay  
We don't have to hurry  
Stay  
Be mine tonight  
Stay  
We got to go further  
Stay  
Let your lovelight shine

I'm in love

It's a need which I cannot deny  
Dancing out  
All night long  
We'll get caught in a song

There gotta be more
