

Tease

Stone Fury

You, you make me crazy and I don't know why
You keep me round just for another night
You always keep me waiting
You push me to a frenzy
Girl, I'm gonna go away
I won't come back some other day

Your special touch gives me so much
Why do you fight, when it seems so right
You oughta know, you've gotta take a chance
Why can't you see
Someday you will know

Still I wanna tell you, you just don't even have clue
There never was another way
You're missing what you had today
You're living in another world

Look you better face the news
Can't you see, you gonna lose

You keep thinking, that you're the only one
I'll tell you something to your face
I'll be gone without a trace
You're living in another world
Thinking you're the only girl
Girl, you're just too hard to please
You're nothing but another tease
