

I'm With The Band

Stone Gods

Tears of the one eye,
Cos' the other two are still shut,
I've got no idea where the hell I am,
But there's a young girl cupping my nut,
I pull back the curtain,
And the sun comes shining in,
I ain't got the time for cheap regrets,
Its time to start loading in,

Life on the road,
It holds many secrets,
Never be told,
We'll keep it discreet,

I don't wanna love you,
Consider this a one night stand,
The bus keeps rolling
On and on and,
But make no mistake girl,
We'll be doing it all night long,
In the morning I'll be gone,
Cos' I'm with the band,

Moving onto another town,
Same shit but a different day,
It's been a while since my clothes were clean,
But I kinda like it that way,
You pick pocketed a pink pussy pass,
You thought you'd get one of the guys,
Made it backstage to the dressing room,
And saw it was a pack of lies lemme tell ya 'bout,

Life on the road,
It holds many secrets,
Never be told,
We'll keep it discreet,

I don't wanna love you,
Consider this a one night stand,
The bus keeps rolling on and on,
But make no mistake girl,
We'll be doing it all night long,
In the morning I'll be gone,

Hey,

I don't wanna love you,
Consider this a one night stand,
The bus keeps rolling
On and on and,
But make no mistake girl,
We'll be doing it all night long,
In the morning I'll be gone,
Cos' I'm with the band,
I been working for the band.
