

Start Of Something

Stone Gods

I got my mind
Don't wanna use it
Keeping in line
Don't wanna lose it

I'm not afraid
And I get over it
I'm not done yet
Just got to prove it

I gotta try to believe things happen for a reason

Hey this is the start of something
Woo we're on our way
This is the start of something
We don't care what they say
We do it our way

I'm not afraid
And I get over it
I'm not done yet
Just got to prove it

I gotta try to believe things happen for a reason

Hey this is the start of something
Woo we're on our way
This is the start of something
We don't care what they say

We're not afraid
To turn another page
Because we know these things they happen for a reason

This is the start of something
Woo we're on our way
This is the start of something
We don't care what they say (3x)
