

Getting Plenty

The Stone Roses

And I'm not going down
And you'll not have me now
You cannot drag me down

So easy to approach me
I only get with cut throats
You think I'm only joking around
Well I'm holding them now
You will not have me now

You make a bee line for me
And I say, must say something
And I can't turn my back on the world
Coz I've got to place it straight
I don't know what I'll wait

Your draggin' me draggin' me down
Take me down
Show me around
And cannot hurt me now
Cause I'm not ready now
You cannot have us now
You will not drag me down

You can have me whenever you want me

Your draggin' me draggin' me down
Take me down
Show me around
But don't let me now
Cause I'm not ready now
You cannot have us now
You will not drag me down

You can have me whenever you want me
You can have me whenever you want me
Whenever you want me
Whenever you want me
Whenever you want me
You can have me whenever you want

Whenever you want

You can have me whenever you want me
You can have me whenever you want me
Cause I'm gettin plenty
We're all gettin plenty
Whenever you want me
You can have me whenever you want
