

# This Is the One

The Stone Roses

A girl consumed by fire  
We all know her desire  
From the plans that She has made  
I had her on a promise  
Immerse me in your splendor  
All the plans that I have made

This is the one  
This is the one  
This is the one  
This is the one  
This is the one  
She's waited for

This is the one  
This is the one  
This is the one  
Oh this is the one  
This is the one  
She's waited for

I'd like to leave the country  
For a month of Sundays  
Burn the town where I was born  
If only she'd believe me  
Bellona belladonna  
Burn me out or bring me home

This is the one  
This is the one  
This is the one  
This is the one  
This is the one  
She's waited for

This is the one  
This is the one  
This is the one  
Oh this is the one  
This is the one  
I've waited for

Oh this is the one  
Oh this is the one  
This is the one  
I've waited for

This is the one  
Oh this is the one  
Oh this is the one  
This is the one  
I've waited for

This is the one  
This is the one  
This is the one  
Oh this is the one

This is the one  
I've waited for

I paid her back  
Then I got one  
This is the one  
This is the one  
She's waited for

And this is the one  
This is the one  
Oh this is the one  
This is the one  
She's waited for

This is the one  
Oh this is the one  
Ah this is the one  
This is the one  
I've waited for

This is the one
