

Pulling the cold on top, waiting for light and sound to stop  
Deeper and deeper today, further and further I fade away  
Let me ignore the cause. Special effects for common laws  
I'm ready for numb... I'm ready for numb...  
What have I become?  
If the demons take me, I just want to be damned for good  
When the spirit makes me, I will die like a good man should

I was only 18 when I finally let go  
Picking at the dead like a raven on the road  
I will never understand if I never get told  
Living in the dark like a raven on the road

Digging with pale white hands, keeping the calm and tasting sand  
Doing a favor today. Telling a friend to stay away  
I can afford the cost. I don't care for what I've lost  
I'm ready for numb... I'm ready for numb...  
When do I become?  
If the angels take me, they're going to need extra time  
When the spirit mocks me, I'll know I only took what's mine

I was only 25 when I finally went home  
Looking for a ride like a murder on the road  
I will only understand when you leave me alone  
Dying in the dark like a murder on the road  
Like a murder on the road

You're never too young to remember you're old  
Looking for a deal like the devil on the road  
I will only understand when I finally get told  
Waiting for the dark like the devil on the road  
Like the devil on the road  
Like the devil on the road  
Like the devil on the road
