

Miracles

Stone Sour

I've seen it all and I know better
I've felt the bitterness and pain
My soul keeps changing like the weather
The only constant is the rain
I know your black and white intentions
And theres no room for shades of grey
I've never asked you to conform to me
I only beg for you to stay

I'm waiting here all night for you to come
But your luck just disappeared
I'm wating in the dark for miracles
Miracles don't happen here
Miracles don't happen here
Miracles don't happen here

I still have dreams that were together
And I can still taste your skin
Reminders all around surrounded by your light
I don't want to die again
I don't deserve to be discovered
I don't deserve to know you care
I only want my promise honered
Not for some who isn't there

I'm waiting here all night for you to come
But your luck just disappeared
I'm wating in the dark for miracles
Miracles don't happen here
Miracles don't happen here
Miracles don't happen here

I'm waiting here all night for you to come
But your luck just disappeared
I'm wating in the dark for miracles
Miracles don't happen here
I'm waiting here all night for you to come
But your luck just disappeared
I'm wating in the dark for miracles
Miracles don't happen here
Miracles don't happen here
Miracles don't happen here
Miracles don't happen here
