```
I am walking through your streets
I am looking in your windows
I am elemental now
You'll never even know I'm there
I am watching over you
I am living in the shadows
I am just a word to you, but I am very real and cold
Cold to all of this
Cold to how you feel
Cold to all your loose reason
I am everything
I am anything
I am automatic
I am yesterday
I am everyday
I am gonna be...
Yeah
I am all there is to know
I am all that you've forgotten
I am enigmatic now
You never even knew my name
I am dressed in tragedy
I am by design immortal
I am just the last one left but I am always here and old
Old and very strong
Old as all you feel
Old as all the world around you  \\
Yeah
I am everything
I am anything
I am automatic
I am yesterday
I am everyday
I am gonna be...Reborn
(This is the start of something)
I am just a secret now
I am just a faint illusion
I'm a lie you tell yourself that you never truly did believe
I'm a whisper in the dark
I'm a victim & the killer
I am almost ready now
but you insist I dont exist
that I don't exist
that I don't exist
that I don't exist
I am everything
I am anything
I am automatic
```

```
I am yesterday
I am everyday
I am gonna be...Reborn
this is the start of something...
this is the start of something...
this is the start of something...
motherfucker...motherfucker...motherfucker...
```
