## **And So I Know**

## **Stone Temple Pilots**

And so I know it's begun again

Never be the same and with that I said

You'll never ever be this way again

Hold on till the end like it's the last hello Whirlwinds and roller coasters Long grass making shapes hello Disappearing, disappearing floating graves

Never, ever, ever be this way You'll never ever be this way again

Never, ever, ever be this way And never ever be this way again

And so I know, it's begun again
Never be the same and with that I said
Campfire girls make me feel alright
Campfire girls make me feel alright
Campfire girls
