

## First Kiss on Mars

Stone Temple Pilots

Take a risk and listen to the radio  
Click your heels at the bi-polar disco  
Fly down the villa destination sign  
Everybody feels the days but waits for summer nights

Boy meets girl  
They might drive in modern love

Can we really find  
Love, the magic place we dream of  
Super magic robots set the  
Solar system free

Reel over, reel over and over  
Reel over, reel over

Reel over, reel over and over  
Reel over, reel over and over

Reel over, reel over and over  
Reel over, over and over again
