

## Heaven & Hot Rods

Stone Temple Pilots

You can get it if you really want it  
But you better off just leave it alone  
You won't forget it if you ever had it  
So you're better off just stayin' at home  
She walked in with her alligator sister  
Trying to get to heaven on Sunday  
You'll never get it  
If you never had it  
So better off just leave it alone

And the dogs came in  
Just to see her smile  
Just to see her smile

You don't get it, no, you won't forget  
So you're better off just leave it alone  
If you don't stop thinkin'  
Soon you will be drinkin'  
And you're better off just stayin' at home

And the dogs came in  
Just to see her smile  
And the gods came in  
Just to see her smile  
Just to see her smile

Coming down  
Mom I'm still healin'  
Coming down  
Oh, and I'm still breathing  
Coming down
