## **Heaven & Hot Rods**

## **Stone Temple Pilots**

You can get it if you really want it
But you better off just leave it alone
You won't forget it if you ever had it
So you're better off just stayin' at home
She walked in with her alligator sister
Trying to get to heaven on Sunday
You'll never get it
If you never had it
So better off just leave it alone

And the dogs came in Just to see her smile Just to see her smile

You don't get it, no, you won't forget So you're better off just leave it alone If you don't stop thinkin' Soon you will be drinkin' And you're better off just stayin' at home

And the dogs came in Just to see her smile And the gods came in Just to see her smile Just to see her smile

Coming down
Mom I'm still healin'
Coming down
Oh, and I'm still breathing
Coming down
