# Everybody But Me

**Stonewall Jackson**

Last night I went to a party held my head up high
Said hello to old friends wore a happy smile
And nobody knew I was hurtin' cause heartache you can't see
Guess I fooled everybody everybody but me everybody but me

I listened to their little jokes even laughed out loud
But oh how I miss someone not being with the crowd
Yet nobody knew I was crying here's in my memories
Guess I fooled everybody everybody but me everybody but me

I listened to their little jokes...
