

# I Miss You Most In The Winter Time

Stonewall Jackson

Funny how the spring brings back your mem'ry  
And the summer finds you always on my mind  
In the loneliness of fall I can almost hear you call  
But it seems I miss you most in the winter time  
On the winter's not the world as cold as I feel  
As I reach to touch the place you left behind  
Anytime of the year you can always find the tear  
But it seems I miss you most in the winter time

Did you tell him how the snow fell as you left me  
But I'm sure he was with you all the time  
Can you send me down your love to warm me from above  
Don't God know I miss you most in the winter time  
Don't God know I miss you most in the winter time
