

Water's So Cold

Stonewall Jackson

The crest of the waves break over my head
My strength's about gone and soon I'll be dead
I'd rather be dead out here in the sea than to love a woman who
never loved me
Oh the water's so cold out here in the dark

The water's so cold as cold as your heart
The lights from the shore are fast growing dim the water's so c
old I can hardly swim
I offered my ring I offered my name she said you're a child she
put me to shame
If she saw me now she'd have to agree most men couldn't swim th
is far out to sea

Oh the water's so cold...
The water's so cold I can hardly swim
