

You Can Check On Me

Stonewall Jackson

My show signs on the air at six and I get off at night
But I sit there each evening with more than records on my mind
You know that there's three hours when you're sure that you're
free

You only need your radio and you can check on me
You can check on me fourteen thirty on your dial
No matter where you park with him I'm there to make you smile
You smile because you realize these records I might be
You can check on me and know how long it's safe to cheat

I called your name and played our song so often on the air
I play each request for you and someone else to hear
Out there somewhere you'll hear these words and know I've seen
the light
I'll be at home when you come in I take the show tonight
