Feet Don't Touch The Ground

Stoney LaRue

I remember when I met you, big city boy small town blues
This town seems so small to me well I was used to the blvd
When I saw you I fell so hard now I never want to leave
Girl I'm here forever

We got moon light, all night
Lord I pray on the next star I see tonight never lose this thin
g we found
Your by my side, I can do without the city lights
I fly so high when you're around yeah my feet don't touch the g
round

Things I've done the places I've been just don't compare to the
 love I'm in
Its beats all I've ever seen
If youd've told me a few years back that I'd still be living in
 the place I'm at
Oh I'd say you're living in a dream,
Girl I'm here forever
