

# The Oath Of The Legion

Stormlord

Samnites,  
the bravest breed of Mother Earth  
thousands  
of warriors hungry for revenge  
swearing  
to reach the victory  
or to die gallantly  
axes in hands

Under the holy curtain they  
become as one

Those who  
dared to refuse the sacred ritual:  
their lives  
were taken by the soldiers' knives  
slaughtering  
the cowards with no pride,  
in front of all the crowd  
no one was spared

Sixty thousand chosen men  
for war were gathered

Sixty thousand golden shields  
were held overhead  
shining bright

"over this battlefield  
'till the last drop of blood we'll fight  
gods, take our souls with you,  
hear the oath of the legion"

Fearless  
the legion is marching  
for the honour of the Samnites

Under the holy curtain they  
become as one
