

# Magic Night

Stormwind

Like a shooting star from heaven, you came into my life  
Always loving and so joyful, you chase my shadows away  
You're the one for a lifetime, I can't imagine it without you  
You always talk to some stranger, inspiring me to live in danger!

I can't imagine  
I can't imagine it without you  
I've got the wind now honey  
I've got the wind beneath my wings.

It's our magic night!  
And you're my starlight!  
You're my everlasting heart of love

It's our magic night!  
And you're my starlight!  
You're my guiding light of love

Your eyes are filled with passion  
but you always waited too long  
It's almost like an illusion  
You take my breath away
