

# She's the Sun

Stormwitch

Embracing shadows lie on me  
The night shall stay  
I don't want to see  
The righteous way  
I know that she isn't free  
She gave her word  
Her life has to be  
As a proud bird  
In a royal cage, she lives her life  
The fate forbid's to be a wife  
She's the sun and golden shines her light  
She's the sun, her smile lights up the night  
She's a queen - and out of reach to me  
She's a queen - it hurts to set her free  
I know, that she has to fight  
Lend her hand  
For her King, the right  
And her land  
In a royal cage, she lives her life  
The fate forbid's to be a wife  
[Chorus]  
The secret Gods - they pray for you  
They save your life, me too  
The secret ways - you have to go  
You'll have to win, I know
