

# True Until The End

Stormwitch

We were five friends since childhood days  
With no one else we shared our secret ways  
We swear to ourselves  
That we never care about anything else  
Then our companion

We carved these words into a stone  
We always sing these words forever on

True until the end  
Here we stand  
Against the world  
In liberty

We were sixteen the world was on our side  
And we never thought, that someone could die

We always sing these words forever on  
We sing these words for the killed and the fallen ones

True until the end  
Here we stand  
Against the world  
In liberty
