

We Don't Care Anymore

Story of the Year

Underneath the gun
In front of waiting eyes
Our time has just begun
No second chance tonight

So we walk the longest days to live
Inside the shortest nights
We compromise our hearts
To keep them satisfied

The shadows of our past
Hard to ignore
But judgment means nothing
That's not what we're fighting for

We don't care anymore
We don't care anymore
We don't care anymore
We don't care anymore

Underneath the gun
In front of doubting eyes
We walk this path as one
Take on the world tonight

We will carve our names
Into their bones
But we'll never sell ourselves
That's not what we're fighting for

We don't care anymore
We don't care anymore
We don't care anymore
We don't care anymore

I won't let this love
I won't let this love die
I won't let it die

There's only one thing that matters this time
At the hands of judgment
I won't let it die
No sacrifice
Regrets left behind
I won't let it die
This time
I won't let it die
That's not what we're fighting for
We don't care anymore

We don't care anymore
We don't care anymore
We don't care anymore
We don't care anymore

I won't let this love
I won't let this love die
