

Airbus please take me where you go
Airbus please take me where you go
Airbus please take me where you go
And I hope, you won't take to long
We're standing in the line
Waiting for them to say we're fine
Seems like confusion's running all this time
Airbus please take me where you go
Airbus please take me where you go
Airbus please take me where you go
And I hope, you won't take to long
We're standing in the queue
No one knows what to do
It looked unravelled from the beauty here today
Take off your shoes and make sure, knock we all are
safe
Airbus please take me where you go
Airbus please take me where you go
Airbus please take me where you go
And I hope, you won't take to long
And I hope, you won't take to long
It's really way to far to walk
So I hope you won't take to long
Airbus please take me where you go
Airbus please take me where you go
Airbus please take me where you go
And I hope, you won't take to long
Airbus please take me where you go
Airbus please take me where you go
Airbus please take me where you go
And I hope, you won't take to long
And I hope, you won't take to long
And I hope, you won't take to long
