

Fire

Stradlin Izzy

There's a fire upside the mountain
There's a fire upside the hill
And the smoke she is rolling
And we just might have to leave
And we just might have to leave
There's a fire upside the mountain
There's a fire upside the hill
And the smoke she is rolling
And we just might have to leave
And we just might have to leave
Don't let it burn
They're gonna let it burn
It's just too big to fight
It has burned for thirty nights
Don't let it burn
They're gonna let it burn
It's way too big to fight
It has burned for forty nights
Don't let it burn
They're gonna let it burn
It's way too big to fight
It has burned for forty nights
