

Gotta Say

Stradlin Izzy

Got another phone call
Tellin me the words
Got another story for me to learn
Say the truth out walkin
Walked right out my door,
I didn't try to follow,
cause I knew the score

Tell me what you gotta say
I see through you anyway
I think you have underestimated me
And tell me what you gotta say
I see through it anyway
I think you have once again

... Never mind the weather, never mind your head
I know why you're callin on me here today
-things are goin fine now
Yeah all's well I'd say
The one thing that troubles me is
when ya call my name

Tell me what you gotta say
I see through you anyway
I think you have underestimated me
And tell me what you gotta say
I see through it anyway
I think you have once again
