

# The Movie Medley

Straight No Chaser

Bap de ba ba  
Bap bap bap...  
Get your popcorn (and butter please)  
And Diet Coke (less calories)  
And take your seats (silence your phones)

There are dinosaurs  
In Jurassic Park  
Oh no!  
They just escaped  
The power went out  
Setting them all free  
Run for your lives!  
(Oh my God!)  
(Run for your lives!)  
(I got bit!)  
(Run for your lives!)

He's got cool cars and gadgets  
Loves brunettes and blondes  
Your husband loves these movies  
He loves brunettes and blondes  
Brosnan and Daniel Craig  
Connery and Roger Moore  
And those two other guys  
You've never heard of before  
Bond, James Bond

Found him in our backyard  
Was left by his spaceship  
E.T. the tiny alien  
Just wants to phone home

Kate Winslet was cheating  
With DiCaprio  
An iceberg  
Caused the ship to sink  
But that string quartet kept cool  
And played on as most everyone drowned

(Har-rison Ford)  
Indiana, not the school  
He was a cowboy with a science background  
He was searching for a cup  
While fighting pirates and bad guys  
And running from boulders in a cave

Life is a box of chocolates he said  
And he really had to pee  
When not on the run, he sat on that bench  
Waiting to see Jenny  
They had a child, that kid from the Sixth Sense  
Dead people he could see  
Bruce Willis dead the whole time  
What a great movie

Have you seen this movie?

Our guess would be no  
But this famous theme song  
You probably know  
We'll show you how this song is used  
In movies and shows (Your favorite shows)  
The character's always in a race  
Running in slow-mo

Sylvester Stallone was a nobody  
Until he wrote this great story  
The underdog wins in the end  
Always yelling: "Adrian!!"

Rocky boy  
The rocky fight  
They kept the montage tonight  
Running up the stairs  
Push ups and punching cows to train (Oh Philadelphia!)

Star Wars  
More like bizarre wars  
Too many prequels  
Can't follow along  
Vader  
More like a hater  
Used his light saber  
To injure his son

Now Luke, we're grateful that you saved everyone  
But why did you kiss your sister? (That's just nasty)  
We know, she looked hot in that gold bikini  
But c'mon man she's still family  
Family (Everybody!)

Star Wars  
Ya da da Star Wars  
Ya da da Star Wars  
Ya da da da!

Hope you enjoyed (hope you enjoyed)
