

## Walk In The Fire

Strangeways

I hold you close beside me  
But in my heart I wonder  
How can I, be strong  
These endless nights are way too long  
How can I say it's over  
How could I ever leave her  
Why would I lie, tonight  
If only my love could make it right

I want to walk in the fire (walk in the fire)  
I feel the heat as your heart beats next to mine  
Touching your body, still makes me burn inside

I realize I need you  
I can't believe I hurt you  
Why should I lie, tonight  
We only need love to make this right

I want to walk in the fire (walk in the fire)  
I feel the heat as your heart beats next to mine  
Touching your body, still makes me burn inside  
Burn inside

Walk in the fire

And as I walk in the fire (walk in the fire)  
I feel the heat as your heart beats next to mine  
Touching your body still makes me burn inside  
I want to walk in this fire (walk in the fire)  
I feel the heat as your heart beats next to mine  
Touching your body, makes me burn inside  
Makes me burn inside  
Walk in the fire  
I feel the heat of your body
