

Big Thing Coming

The Stranglers

There is a big change coming
I don't care who you are
It will change everyone
And with the big change coming
You better find out who
And what you really are come on

There is a new time coming
We're gonna have to change
Apples to everyone
And with the big change coming
We better make our peace
With each and everyone come on

I was howling at the full moon like a wild dog
I prayed the mothership would take me to the heavens above
Big thing coming and it's coming real soon
Come on

There is a new time coming
We're gonna have to change
Apples to everyone
And with the big change coming
We better make our peace
With each and everyone come on

I was howling at the full moon like a wild dog
I prayed the mothership would take me to the heavens above
Big thing coming and it's coming real soon
Come on

Big thing coming and it's coming real soon.
