

## Boom Boom

### The Stranglers

I've seen them come and I've seen them go  
The string of life plays out that way  
There have been times when I've let you know  
I'm not attracted to you today  
No way, uh uh, boom boom  
Theres a joke in there somewhere that's meant for you

Troubled thoughts race around my mind  
Some of the blackest you can find  
And like the days that go before  
We're not connected anymore  
For sure, no not now, boom boom  
And you dirty little secret is all yours... to play  
I won't give you away  
It's all yours to play, I won't give you away

Boom boom, boom boom

We'll surely turn a corner soon  
And move the grey to black and white  
Just like the phases of the moon  
Just like the rain will catch the light  
You're not mine, boom boom  
'Cos you can't reject the things they take away today  
The things they take away  
You can't reject the things  
The things they take away, boom boom

Boom boom, boom boom....
