

Let's Tango in Paris

The Strangers

Sentimental through the night
Sharing secret candlelight
We're away
Every day
Laughing, joking just sustains
Situation quite insane
Flowing wine
Quite sublime
Not so far for me to say
I could take you there today
Let's tango in Paris.

You might find yourself with me
Share your glass of vanity
We're away
Every day
Not so far for me to say
I could take you there today
Let's tango in Paris.
