

Savage Breast

The Strangers

The world it gets the final love on us
All of our dreams and all our hopes enough
We need the music to soothe the savage breast
You look inside a thousand lives or two
You know the meaning when she smiles at you
She plays the music to soothe the savage breast
Music to soothe the savage breast

There's more than one emotional affects
They keep the wheels emotion out in place
They play the music to soothe the savage breast
Music to soothe the savage breast

Music to soothe the savage
And when our land was ravaged
Then you can get to here

Music to soothe the savage breast
Music to soothe the savage breast
Music to soothe the savage breast
Music to soothe the savage breast
Music to soothe the savage breast

We need the music to soothe the savage breast
We need the music to soothe the savage breast
We need the music to soothe the savage breast.
