

## Force Fed

## Strapping Young Lad

Animal, you're an animal...  
You're a goddamn fucking animal  
It sucks you in... pulls you in  
No one knows

One never breaks if you never bend  
Don't ever try, don't ever win

Animal, you're an animal... you're a goddamn fucking animal  
Face your fears: you gotta face your fears  
You gotta ride...

We're young  
We'll find a way to love again  
And we'll find a way...  
Find a way to the world  
And we'll find a way...  
Force Fed to the world

No shades of grey... just seas of red  
To bathe in what makes you whole  
What makes you whole?
