Strata

I'll try to now  
recover  
what made me whole  
recover the way it used to be  
what pleases you  
makes you who you are  
it rapes you  
name your price  
it feels like this war  
could use you  
so strong in will  
i know this is how it has to be  
what pleases you  
makes you who you are  
it rapes you  
name your price  
i almost feel warm  
in this moment  
in that picture of home  
remember the way it used to be  
what pleases you  
makes you who you are  
it rapes you  
name your price  
need one more chance
