## **Chasing Shadows**

**Stratovarius** 

I have been sailing across the oceans Flying across the blue sky Without never finding the answer The answer to question why

Just when you think you reach it, it's gone

Chasing shadows, chasing shadows Chasing shadows, all your life You're chasing shadows, chasing shadows Chasing shadows, all your life

Harder you try to fix things in your life Faster you know it's in vain Searching for loving from strangest places Nothing is left but the pain

Just when you think you reach it, it's gone

Chasing shadows, chasing shadows Chasing shadows, all your life You're chasing shadows, chasing shadows Chasing shadows, all your life

Chasing shadows, chasing shadows Chasing shadows, all your life You're chasing shadows, chasing shadows Chasing shadows, all your life

You're chasing shadows, chasing shadows Chasing shadows, all your life You're chasing shadows, chasing shadows Chasing shadows, all your life
