I'm Still Alive

Stratovarius

Look around turn around You just might fall to the ground Sail away break away Damage done nothing to say All my life I've felt like an outcast But not anymore, a thing of the past Feel the sun, got to run Feels like life has just begun All is new, different view So many things that I will do I'm leaving behind the things I don't need And with confidence i'm planting the seed

I'm still alive I'm ready to feel the wind in my hair And I know there are so many things to share I will write my story again Masterplan of a new kind I was lost but now I'm found I'm still alive
