

Lifetime in a Moment

Stratovarius

"Omnia sol temperat, purus et subtilis.
Novo mundo reserat faciem Aprilis."

From the dark I watch you go away
I will never see you again

Every passing day prolongs my pain
I am slowly fading Into the void

Voice without a sound
A sound that no one cares to hear
A second drowned
You live, your life just passed away

Moment in a lifetime
Lifetime in a moment

Seize the day don't let it slip away
Cherish every moment, before it's gone

Voice without a sound,
A sound that no one cares to hear
A second drowned
You live, your life just passed away

Moment in a lifetime
Lifetime in a moment
