Night Screamer

Stratovarius

Scream at nights
But you won't be heard
It's deep inside
The pain within your head

You cry for help
The torture won't let you go
Your mind is aching
And you can't go on

Reaching for window Your execution Is the only solution

Night screamer Night screamer

Afraid at nights
There's nothing to be afraid of
Your nightmares
Won't leave you alone

Try and think hard What's wrong in your life Try and stay cool You'll find peace of mind

Reaching for window Your execution Is the only solution

Night screamer Night screamer Night screamer Night screamer

Night screamer Night screamer Night screamer
