

The Abyss of Your Eyes

Stratovarius

I feel like I'm drowning
Trying to catch my breath
Don't know what is happening
There's no sense of time
Deep underneath my skin
Feeling the pain within hear my cry
I feel drawn towards you can't resist
I don't know why
My life is changing I cannot recall
Where I've been before - the abyss of your eyes
Meaning so much more, am I losing my mind
The sun isn't shining
But your eyes light my way
I've found what I've been searching for
My love won't go astray
Deep underneath my skin
Feeling the pain within hear my cry (hear my cry)
I feel drawn towards you can't resist
I don't know why (I don't know why)
My life is changing I cannot recall
Where I've been before - The abyss of your eyes
Meaning so much more, am I losing my mind
The sun isn't shining
But your eyes light my way
I've found what I've been searching for
My love won't go astray
So many years my drifting heart has wandered around
Don't turn on me won't you stay by my side
My life is changing I cannot recall
Where I've been before - The abyss of your eyes
Meaning so much more, am I losing my mind
Where I've been before - The abyss of your eyes
Meaning so much more, am I losing my mind
Where I've been before - The abyss of your eyes
Meaning so much more, am I losing my mind
