

## Desiree

### Strawberry Alarm Clock

When love is first made  
Like wind in the air  
And then starts to fade  
Oh, what did we share?  
We've had many dreams  
To pass on the day  
Oh, where is she now  
My Desireé?  
I'm standing alone  
Like a fool on a hill  
I'm empty inside  
And I feel a chill  
I wish I could cry  
And there'd be no more pain  
And if she came back  
I'd love her again  
A thousand to one  
It never ends  
There she would come  
We'd fulfill our dreams  
'Til the end of the day  
Oh, here she comes now  
My Desireé  
My Desireé  
She makes love to me  
She got the power of givin'  
As wild as the sea  
She makes my whole life worth livin'  
We got the excitement  
That's gonna stay  
So good luck to us  
Me and Desireé  
Hey  
When love is first made  
Like wind in the air  
And then starts to fade  
Oh, what did we share?  
We've had many dreams  
To pass on the day  
Oh, where is she now?  
My Desireé  
My Desireé  
Desireé, hey, hey  
I want you  
Hey, Desireé  
Oh, I want you, Desireé  
My, my, my, my, my Desireé  
I'm talkin', talkin', talkin', talkin' Desireé  
Yeah, I need you, Desireé, yeah  
Oh, I need you, Desireé  
I need you, Desireé  
I want you, Desireé
